

## *XYC-Q Series Semi-Automatic Bagging Machine*

### **Product description:**

### **Application Scope:**

Granule or puffy granule material with fine flow ability, such as rice, peanut, aginomoto, seeds, sugar, feeds, medicine, washing powder and so on.

### **Technical Parameters:**

Model	Weighing Scope	Speed	Accuracy	Power	Air consumption
<b>XYC-Z5B</b>	0.5-5kg	10-15 bags/min	0.2%FS	3kw	0.4-0.6MPA
<b>XYC-Q25B</b>	5-25kg	8-14 bags/min			
<b>XYC-Q50A</b>	20-50kg	4-7 bags/min			
<b>XYC-Q50B</b>	20-50kg	8-12 bags/min			

### **Product characteristics**

1. Material feeder can automatically regulate according to different material proportion, high speed
2. Independent weighing sensor, work more stable, higher sensitivity
3. Brief operating screen, easy to use
4. With calibration procedure, accurate weighing sensor
5. Hopper is sealed by glass cover, design of high performance dustproof, reducing pollution of the workshop.
6. Hopper is easy to be dismantled, making clearing work easier.
