

Automatic Cup Filling Sealing Machine YSCF-4

Machine information

1. The automatic jerry cup filling and sealing machine is suitable for automatically filling and sealing plastic cup and box. Used for packing drink, yogurt, jelly, pudding, soya-milk, mineral water etc.
2. Automatic jerry cup filling and sealing machine is automatically dropping cup, filling, UV sterilizing, light sensor, printing date, sealing, cutting, etc. the machine is made of steel stainless steel with simple construction and easy to operate.
3. The automatic jerry cup filling and sealing machine for jelly/yogurt/juice provide customization according to different product.

Technical parameter:

Model	YSCF-4
Packaging Speed	3360-4320 piece/h
Filling Content	0-350ml
Voltage	3-phase 4-line socket (380V50HZ)
Electric Motor Power	1.1KW
Heat Up Power	4.5KW
Air Pressure	0.5MPa-0.75 MPa
Maximum Air Consumption	0.45m ³ /m
Size(L×W×H)	300×80×170cm
Weight	About 1200kg
