

Automatic Labeling Machine For Wine Bottle / Beer Bottle OL-602

OL-602 is a semi-automatic tabletop round bottle labeling machine well designed for wine bottles and champagne bottles.

Application

Label type: Self-adhesive label, adhesive film, supervision code label, and bar code label, etc.

Products: Round shape bottles, conical shape bottles, oversized wine bottle, magnum bottle.

Industries: Widely applied to the industries of cosmetics, daily chemical, food, beverage, pharmaceutical, alcohol, etc.

Example: Sparking wine bottle labeling, Bordeaux wine bottle labeling, champagne bottle labeling, beer bottle labeling, etc.

Operation Process

Principle of Operation: Put the bottles to labeling station manually, when sensor detect bottles, the signal return back to labeling control system, meanwhile the pressing mechanism go down and label come out labeling onto bottles.

Operation Process:

- 1) put the bottles to labeling station manually,
- 2) Sensor detection,
- 3) Pressing mechanism go down and label come out,
- 4) labeling bottles

Machine Specifications:

| Model | OL-602 |
|----------------------------|--|
| Label type | Adhesive label, supervision code label, and bar code label |
| Label size | Length 20mm - 380mm Width 20mm - 220mm |
| Bottle size | Diameter Ø10mm - Ø160mm Height 25mm - 250mm |
| Labeling speed | 20 – 35 bottle per minute |
| Max lable roll diameter | 240 mm |
| Core diameter | 76 mm |
| Electrical source | 110V - 220V 50Hz - 60Hz |
| Air requirement | 4bar - 6bar |
| Machine dimensions (LxWxH) | 920x470x500 mm |
| Machine weight | 45 kg |
