

TL-500 Model Syrup Cooler

This syrup cooler uses M series compressor from France. It could cool down normal temperature syrup, which is pumped into the cooler, to lower preset temperature. Lower temperature from the cooler would be fed into beverage mixer. This is accessory equipments on carbonated drink producing line.

主要技术参数 Main Technical parameters

压缩机组	Compressor	全封闭 Enclosed
容积	Volume (m ³)	0.3/0.5
蒸发面积	Evaporation area (m ²)	1.5/2
制冷量	Refrigerating (kcal/h)	6000
出浆温度	Outlet syrup temperature (°C)	0-5
功率	Power (kw)	3
外形尺寸	Overall dimension (mm)	1100×900×2278
重量	Weight (kg)	500
