

Combined Weighing And Packaging Machine CP-420E-MW

It can fully complete process including Combination-weighing, product filling, film forming, bag sealing, punching, printing, and counting.

Application:

Dry & Processed Food, Fresh Food, For example: Snack Food, Seeds (Pulses), Nuts, Coffee (granules/ beans), Tea, Sugar, Grated Cheese, Bakery Products, Candies & Confectionery, Rice, Nuts & Dried Fruits, Spices, Pasta, Pet Food (pellets) etc.

Standard Features:

- Automatic Combination weighing and vertical packaging combine in one single unit machine (2 in 1 technology).
- With one frame, one electric cabinet, one electric plug only.
- Strict height control and space saving, easy for cleaning and maintenance.
- Suitable for small and medium packaging application with high speed and accuracy request.

Options:

- Servo motor drives horizontal sealing
- Hole punching device
- Gusset bag forming device
- Tear notch device
- Exhaust air function
- Coding device (ribbon/thermal transfer)
- Gas flush device
- Product Discharge conveyor
- Chain bag with batch cut
- Refilling device for the scale

Technical Specifications:

- Touch Screen: 7 inch color touch screen
- Weighing Head No.: 10 heads
- Hopper Volume: 1500 ml
- Weighing range: 10-800 gram
- Weighing accuracy: 0.5g-1.5g
- Max width of film: 420mm
- Bag width: 80-200mm
- Bag length: 80-300mm
- Bag pulling system: By Servo Motor
- Horizontal sealing system: By cylinder
- Max. Speed: 60 bags/min
- Power: 4.5KW, 220V 50/60Hz
