

JY-800H Automatic High Speed Flow Wrapper with Candy Sorter

Main performance & characteristics

1. Cell-computer automatic controlling, big screen touch-type interface easy and quick setting and operation.
2. The candy automatic feeding, high production efficiency
3. Servo motor is continuous compensating, the bag-length setting is easy adjusted in a step, saving time and film, the pack sealing is airproof and the appearance is handsome.

Using range

It is a high speed packaging machine for all kinds of variant candy such as square, ball, round, column, button, ellipse and regular piece candy.

Technical parameter

Packing speed	200-1000 pcs/min
Packing size(mm)	length: 10-55 Width:10-30 height:4-25
Film width	≤180mm
Dimension(LxWxH)	3200 x 1200 x 1500mm
Voltage	220V/380V/50HZ
Total power	4.5kw
Total weight	900kg
