

Smart Weigh SW-PL8 Linear Weigher Premade Bag Packing System

Features:

- ◆ Full automatic from feeding, weighing, filling, sealing to outputting;
- ◇ Linear weigher modular control system keep production efficiency;
- ◆ High weighing precision by load cell weighing;
- ◇ Open door alarm and stop machine running in any condition for safety regulation;
- ◆ 8 station holding pouches finger can be adjustable, convenient for changing different bag size;
- ◇ All parts can be taken out without tools.

Parameters:

| Model | SW-PL8 |
|-----------------|---|
| Single Weight | 100-2500 grams (2 head), 20-1800 grams (4 head) |
| Accuracy | +0.1-3g |
| Speed | 10-20 bags/min |
| Bag style | Premade bag, doypack |
| Bag size | Width 70-150mm; length 100-200 mm |
| Bag material | Laminated film or PE film |
| Weighing method | Load cell |
| Touch screen | 7" touch screen |
| Air consumption | 1.5m ³ /min |
| Voltage | 220V/50HZ or 60HZ single phase or 380V/50HZ or 60HZ 3 phase; 6.75KW |
