

Vegetable Oil Filling Machine SD-YG-4/8/12

This vegetable oil filling machine is a production our company has kept developing and updating for many years, it has become mature and gained a lot reputation for its reliable structure, integrated electric and driving system, high filling precision and stable processing. It is economic and easy to operate, and an ideal equipment for you edible oil producing.

Features:

- This special designed machine has reliable and stable structure, extremely suitable for the liquid product filling.
- This machine applies world famous brand PLC, electric and pneumatic components, guarantee its long service time and easy maintenance.
- The servo motor driving processing makes any adjustment can be done on the touch screen panel simply and easily.
- This machine's automatic processing structure also enable it the no bottle no filling system.
- The material touching parts are all made of SUS304 or SS316L stainless steel, to guarantee its hygienic level for food production.

Technical parameters:

Model	SD-YG-4	SD-YG-8	SD-YG-12
Filling heads	4	8	12
Filling volume	100-1000ml		
Producing capacity	1000-2000BPH	3000-4000BPH	4000-6000BPH
Filling volume error	±0.5-1%		
Power source	380V 50/60Hz		
Power	3.0KW	5.0KW	7.0KW
Air source pressure	0.6-0.8Mpa		
Weight	800-1600KG
