

## PET Preform Injection Molding Machine SZ-3000A

Pet preform injection molding machine equipped with high performance servo motor controlling system, the machine's output power can vary in accordance with the loading changes, which reduce energy consumption and noise. The motor rotates at lower speed in holding pressure stage, an doesn't work in cooling time.

### Product parameters:

Screw diameter(mm)↕	65↕
Shot weight (g) ↕	905↕
Max Injection pressure(kg/cm <sup>2</sup> )↕	1760↕
Screw stroke(mm)↕	300↕
Screw torque(N.m)↕	2530↕
Heating power(kw)↕	22↕
Clamping force(ton)↕	300↕
Opening stroke(mm)↕	590↕
Mould height(mm)↕	220—630↕
Space between tie bars(mm)↕	610×610↕
Ejector force/stroke(ton/mm)↕	70.6/150↕
Oil pump motor(kw)↕	30↕
Packing size(m)↕	6.7×1.75×2.25↕
Machine weight(ton)↕	11↕
