

PET Jar Making Machine J4

Automatic China PET jar blowing machine J4 is specialized equipment designed for wide neck PET jars. It is high automatically, wide versatility and easy operation. It is especially suitable for the production of neck 50-180mm. J series bottle making machine is precisely positioned and adopts advanced microcomputer PLC control system, which is more stable.

Features:

1. stable and accurate running at high speed, adopt more stable and advanced microcomputer PLC control system.
2. production process is fully automated, with the advantages of low investment, high efficiency, easy operation, simple maintenance and safety.
3. suitable for flexible production of quantity and various bottle shape, wide range of applications, meet customer needs.
4. manual and automatic methods of operation, human-machine interface control, simple operation.
5. servo transmission system, high positioning accuracy, fast speed stability and good reliability.
6. less than 0.2% scrap rate for finished bottle.

	Model	J4
Bottle type specification	Cavity	4
	Theory output bph	2200-2400
	Max.volum	1L-2L
	Bottle mouth maximum overall diameter	80mm
	Bottle biggest diameter	100mm
	Bottle maximum height	330mm

Power specification	Light tube quantity	32pcs
	Light tube power	1KW
	Maximum heating power	32KW
	All electric machine installation	42KW
	Actual consumption	30%--60%
Air pressure specification	Work pressure	7-9kg/cm ²
	Low-pressure gas consumption	1600L/min
	Blow bottle pressure	25-35kg/cm ²
	Higher -pressure gas consumption	3000Ltr/min
Air pressure specification	Work pressure	7-9kg/cm ²
	Temperature range	10°C
	Consumption	8000kcal/hr
	Forzen water flow	138L/min
Machine specification	Machine size	4.1x1.6x1.9
	Machine weight	3.9ton
