

Starch Mogul Gummy Candy Production Line - DRTH-804- II

D&R mogul line is an advanced and full automatic production line for gummy candies. High quality, easy operation, stable run and high output. The whole line includes kitchen system, mogul line, starch conditioning system, starch collecting and recycle system, product finishing and ancillary system. Whatever your production requirements are, D&R will give the best solution.

Type: The plant suits for producing gelatin base candies, pectin based candies, foamed candies, marshmallow and fudge etc.

Feature:

1. Full automatic, keep recipe safe, ensure the high quality of products, and save labor costs.
2. Stable run and large capacity.
3. Servo driven depositing system, suitable for single & double color gummy, multi-layer gummy and center filling gummy etc.
4. No brush design and strong magnetic filter, ensure the safety of products.

Specification:

Production capacity	1000-2000kg/h	Power	97kW
Voltage	380V	Steam	850kg/h, 7-8 bar
Air pressure	0.8mpa	Compressed air consumption	400m ³ /h
Vacuun water consumption	2m ³ /min	4 Degree cooling flux	315kg/min
Dimension(L*W*H)	22000x2000x3000mm	Weight	20000kg
