

Vertical Form 4-Side Sealing, Filling and Packaging Machine RFM 104D

Machine Features:

- Optimal combination of mechanical and pneumatic system in the main mechanism of the machine enables perfect result with low energy and air consumption
- Remote controls such as bag length and adjustment, photocell remote, heat and filling timing, etc. are designed in easily accessible positions on the control panel
- Operating the machine has been eased with PLC system and touch screens
- Printed sachet size setting with photocell system or manual if required
- The temperature can be controlled independently; it is suitable for any kind of packing quality
- Compatible with various filling system
- Simple and user friendly machine
- Low maintenance and low operating cost
- Barcode and expiration date print equipment
- Sealing mode: two or four-side sealing

Optional Equipment:

- Screw Elevator for automatic continuous feeding.
- Product counter and stacking belt conveyor
- Special pattern notch unit
- Line notch unit
- Extra Filling Line

- Date, serial number coding group - hot print
- Date, serial number coding group - cold print

Technical Parameters:		RFM104D1	RFM104D2
Sachet Dimension	min	60*60 mm	80*120 mm
	max	120*160 mm	160*250 mm
Production Capacity (sachet/min)		80-sachets/min	50 sachets/min
Weight		800 kg	
Electrical Data		2 KW/h 220/380 Volt, 50/60 Hz	
Packing Material		Aluminum Foil, OPP+OPP, OPP+PE, Metallised+AL+PE	
Air requirement		5 atu, 100Lt/min	
Dimensions		L1,00 x W1,20 xH 260 cm	
Colour	Metallic gray coloured and the surfaces of the machine that are in contact with the product are made of stainless.
