

## Semi-Automatic Capsule Filling Machine DTJ-V

The product is special capsule filling machine which is suitable for medium & small pharmaceutical factory, hospital preparation lab, etc. The machine is adopted programmable control system, touch panel operation, step-less transduction speed-shift, and electronic automatic counter. And it automatically completes the action of position, separation, filling, locking, etc. The dosage is accurate, and the complete operation is convenient. The overall machine is made of stainless steel, and it is suitable for the capsule which is filled with powder or granules.

### Main technical Parameter:

Capsule size	No. 00#-5# & Safety Capsule A-E
Power supply	380V 50HZ 2.1KW
Vacuum pump	XD-040(40m <sup>3</sup> /h)
Capacity of air compressor	0.1 m <sup>3</sup> /min
Noise	<60dB(A)
Overall dimensions:(mm)	1200×700×1600
Net weight:(Kg)	330kg
