YX-160 *Semi-Automatic High Accuracy Small Filler Machine*

YX-160 Semi-Automatic High Accuracy Small Filler Machine characteristics:

- Import single-chip microcomputer control, high efficiency, low power consumption.
- Automatic counting function, effectively control filling quantity.
- LCD display, touch screen is very easy to operate.
- High filling accuracy.
- Wide Voltage range.
- Working performance is stable and can be used for long time
- This can self-suck the liquid.
- The pump can stand acid and alkali.
- Anti-dripping design.
- Reasonable design, made of stainless steel, meet GMP requirement.

Model	YX-160
Voltage	AC 180V-260V
Power	30W
Filling Range	2ml-3500ml
Max Flow Rate	3.2L/min
Package Size	400X380X200 (mm)
Weight	5.5kgs
Max Suck Distance	2meter
Anti-dripping Funtion	Available
Memory Function out of power	Available
Machine size	350*270*150mm
Diameter of Filling Nozzle	8mm
