

Automatic Sleeve Sealer-Multipack-1500E

Our Automatic sleeve sealer machine and hot air temperature tunnel is designed using finest components and materials available. To get the eventual shrink solution tunnel can be combined with an auto shrink sleeve machine. The tunnel can be installed to any production line for empty or filled bottles and height can be adjusted manually. This machine is available in steel.

Feature

- High Speed Shrink Packaging Machine is suitable for the round bottle, square bottle and canned products use.
- The heat shrink tunnel temperature is controlled separate. It can be adjusted the amount of air and shrink position.
- Conveyor is made by stainless steel. The conveyor speed is for highly stable and smooth.
- Heat shrink tunnel height is adjustable. Conveyor speed is adjustable.
- Heat shrink tunnel can be combined with the sleeve labeling system or auto production process.

Technical Parameters

MODEL	CHM-1500ES
Power supply	3φ, 220V/380V
Watts	8 KW
Sealing size	The end sealing blade: L =1600mm, H =200mm
	The side sealing blade: L =2000mm, H =200mm
Conveyor speed	10 M / min
Conveyor width	1200mm
Machine size	L =4500 x W =2400 x H =1800mm
Air compressor	6 KG/c X 500 1 / min (5HP air compressor)
