

CB-P8200 Stable Rotary Premade Pouch Machine

Unleash the power of automation with our Rotary Premade Pouch automatic packaging machine. Featuring 8 working positions, this state-of-the-art device handles every step of the packaging process seamlessly. From bag pickup to sealing, each task is executed with precision and speed, reducing labor costs and eliminating human error. Experience unparalleled efficiency and productivity in your packaging operations.

Outstanding Features

- Efficient Premade Pouch Machine
- Versatile Packaging Solution
- Reliable Premade Pouch Equipment
- Automated Packaging Innovation
- Precision Premade Pouch System

Package Materials:

- Laminated film\PP\PE etc. Pouch thickness support 50-100 microns.

Technical Parameter:

Model:	CB-P8200
Bag Support:	Preformed bag: Zipper bag, Stand-up pouch, Spout bag, 3/4-side-seal flat pouch, four edge-sealing bag, special bag etc
Packaging Speed:	20 -60 bags/minute
Bag Sizes:	Length 100-300mm,Width 100-200mm
Machine Size:	L1900 * W1400 * H1450mm
Machine Net Weight:	1300KG
Machine Power:	3.5KW 3P 380V 50/60Hz
Gas:	≥0.8Mpa
