

JTJ-208D Semi-automatic Capsule Filler

JTJ-208D Semi-automatic Capsule Filling Machine is suitable for medium and small batch production.

The machine adopts a programmable control system, touch screen panel (optional), speed-shift, and electronic automatic counter.

It can semi-automatically complete the actions of position, separation, filling, locking, etc., suitable for conventional pharmaceutical products such as powder, pellets, granules, as well as for nutraceutical products such as herbs, vitamins or even special products with sticky, abrasive, fibrous, or other properties. This space-saving machine provides a straightforward operation, format changeover within five to eight minutes and dosage accuracy.

Technical Parameters:

Change mould time (minutes)	5-8 (for beginner)
Max. production capacity (capsules/hour)	25
Capsule size	000#, 00L#, 00#, 0L#, 0#, 1#, 2#, 3#, 4# and mechanism capsules
Filling content	powder and small granules
Power (KW)	4.0
Air pressure	0.03m ³ /min, 0.7Mpa
Vacuum pump (m ³ /h)	40
Overall size (m) (LxWxH)	1.14×0.7×1.63
Packing size (m) (LxWxH)	1.65×0.8×1.75
Net weight (kg)	380
Gross weight (kg)	450
