

Irregular Shaped Sachet Packing Machine DXD-RS300

This irregular shaped packing machine is used to pack products into irregular shape sachet, like round shape, hand shape, bottle shape and leaf shape and so on. It's widely used in pharmaceutical, food, cosmetic, chemical and other industries for packing powder, granule, liquid, sugar, pill and other products.

Bag-making, measuring, filling, sealing, cutting and counting are all finished automatically. Either under set length control or photo-electronic color tracing, bag length can be set and cut in one step. Time and film saving. Applicable material can be composite films like: PET/PE, Paper/PE, PET/AL/PE, OPP/PE.

Technical Parameters:

Model	DXD-RS300
Control	PLC + HMI
Air requested	0.6Mpa
Sealer	Horizontal sealer: line Vertical sealer: no pattern, smooth
Speed	20 – 35bag/min (Depend on Products)
Bag size	W: 25-60mm L: 50-180mm (adjustable)
Total power	2150W
Voltage	220V 50Hz 1P or 380V 50Hz 3P
Weight	280Kg
