

Automatic Round Bottle Labeling Machine SMTBJ-70

Suitable for different size of adhesive label or adhesive film on all kinds of round bottle, High accuracy and high speed, dispensing & labeling automatically

Suitable range: Round bottle, Round tank, Round barrel to self-adhesive labeling.

It is used in PET bottle, plastic bottle, Metal can and so on round bottle etc, widely apply in food, medical, cosmetic, chemical, electronic, plastic industry

Characteristics:

1. Wide application, adapt to various sizes of round bottles, it can stick full around and a half the label, easy to change label on bottle, easy adjustable the labeling, transmission speed.
2. Good labeling precision and stability; Neat, no wrinkle, no bubble.
3. Adopt mature PLC control system technology, make the whole machine stable and high-speed.
4. Adopt touch screen control system, make operation simple, practical and efficient.
5. Micro-computer control, with electric eye sensor to check automatically the position of labeling which can avoid not stick label and wasting label.
6. Adopt stainless steel and high grade aluminum alloy steel, in line with GMP requirement.
7. Bottle vertical labeling, it own the function of spitting bottle, it can work on its own or work for production line.
8. It can be equipped with ribbon coding machine to print the date and batch number, which reduce the package procedure and increase the production capacity.

Technical parameters:

Labeling precision	±1mm
Efficiency	40-80 piece/minutes
The size of work-piece	25-100 mm in diameter
Tag width	20-160 mm
Tag length	20-290 mm
Tag outer diamter	240mm
Tag inner diamter	76mm
Machine size	1950 x 1100 x 1300 mm
Weight	185KG
