

CFD-4 Automatic Cup Filling and Sealing Machine

CFD Series automatic cup filling and sealing machine is used to fill and seal various plastic cups with free flowing liquid or paste product. It can automatically complete the process of filling, sealing, film cutting, code printing, sterilizing in ultraviolet radiation and cup-falling in one operation. It has function of automatic film position regulation.

The machine adopts pneumatic principle and applied for big productivity. Famous brand “OMRON” and “AirTAC” are applied to electric components and pneumatic elements.

Specification:

Model	CFD-2	CFD-4	CFD-6	CFD-8
Power supply	380V/50-60HZ			
Power	3.5kw	3.5kw	3.5kw	4.5kw
Filling range	100-500 ml	100-250 ml		
Capacity	1800-2200 cups/hr	3500-4500 cups/hr	5000-6500 cups/hr	7000-9000 cups/hr
Air supply	0.4m3/min	0.4m3/min	0.5m3/min	0.6m3/min
Dimension	260*70*175cm	315*90*175cm	315*115*175cm	395*130*175 cm
Weight	500kgs	700kgs	800kgs	1000kgs
