

SHH-4A Automatic Powder Glass Ampoule Filling Capping Machine

Product Description:

1. This machine is suitable for liquid/powder metering and packing. Such as penicillin powder, collagen powder, pesticide powder, injection, essence, hyaluronic acid etc.
2. PLC touch screen control, easy to operate and maintain.
3. High precision screw or peristaltic pump control, high filling accuracy.
4. Production speed can be adjusted, automatic counting.
5. Made of 304 and 316L stainless steel, which fully meets the requirements of the GMP.
6. Widely used in food, pharmaceutical, daily chemical and scientific research fields.

Functions:

1. Automatic bottle sorting;
2. Automatic liquid/powder filling;
3. Automatic lid placing;
4. Automatic capping;
5. Automatic finished bottle discharge.
