

## *Burrito Forming Machine BR-1500*

ANKO's elaborate burrito machine is recommended for automating the burrito wrapping process. Simply by putting a tortilla in position, as it's detected by sensor, the burrito machine automatically deposits quantitative filling on it. Up to 1,000 appetizing burritos are able to be formed in an hour. The productive machine not only saves labor costs, but also enhances quality and capacity.

### **Features:**

- Put the well-baked tortilla wrap on the machine, through the process of filling, folding, and wrapping. It will produce Burrito automatically.
- It can also process other wraps to make different products.

### **Technical Parameters:**

- Dimensions: 3,400 (L) x 680 (W) x 2,000 (H) mm
- Power: 1.5 kW
- Capacity: 1,000 pcs/hr
- Product dimension: 150–160 mm (L); 50–60 mm (W); 25–30 mm (H)
- Product weight: 125–145 g/pc
- Filling hopper capacity: 80 kg
- Suggested wrapper size: 9.5–10.5 inches
- Weight (net): 375 kg
