

YS-1/2 Automatic Stopper Inserting Machine

In the automatic bottle feeding process, the cap manager cap system is continuously transported to the position of the cap, and accurately set on the mouth of the bottle, the cap device will press the cap in the mouth of the bottle, complete the process of pressure inside the cap.

- Strong compatibility, suitable for all kinds of round bottle, flat round bottle, square bottle, flat square bottle.
- According to the different cover types of customers to design targeted cover way.
- One-stop-shop automatic processing, fitting and capping.
- It has many detection and alarm control functions, such as no bottle, no lid, no work, fault self-check and so on, to ensure the continuity of production and the accuracy of gland.
- It has many detection and alarm control functions, such as no bottle, no lid, no work, fault self-check and so on, to ensure the continuity of production and the accuracy of gland.

Technical Parameters

Model	YS-1	YS-2
Max Capacity	10-50BPM	10-100BPM
The power supply voltage	220V/50HZ 0.5kw	220V/50HZ 0.5kw
Size	1400×700×1400mm	1900×700×1400mm
Main material of equipment	SS304	SS304
Control system	MCU	MCU
Compress Air	0.6 Mpa ; 200L	0.6 Mpa ; 300L
The weight	200kgs	280kgs
