

## *RZ10-140E-14ZK Vacuum Pouch Packaging Machine*

The RZ10-140E-14ZK vacuum pouch packaging machine is a versatile and efficient solution for businesses that need to package their products quickly and reliably. With its advanced features and user-friendly design, The RZ10-140E-14ZK vacuum pouch packaging machine is ideal for use in a variety of industries and applications.

### **Description**

#### **Features of RZ10-100E-14ZK rotary vacuum packaging machine**

One of the key advantages of the RZ10-140E-14ZK vacuum pouch packaging machine is its ability to handle different types of bags and pouches. Whether you need to package products in stand-up pouches, flat bags, or other styles, this machine can accommodate a wide range of bag types and sizes. This makes it a popular choice for businesses that need to package different products in different types of bags.

#### **Vacuum system of the RZ10-140E-14ZK vacuum pouch packaging machine**

In the food and beverage industry, the RZ10-140E-14ZK vacuum pouch packaging machine is especially useful for packaging perishable products, such as meat, cheese, and other dairy products. The RZ10-140E-14ZK vacuum pouch packaging machine's powerful vacuum system ensures that these products are fully sealed and protected from air and moisture, helping to extend their shelf life and maintain their freshness. It is also suitable for packaging snack foods, nuts, and other dry goods.

The pharmaceutical industry can also benefit from the RZ10-140E-14ZK vacuum pouch packaging machine's precise controls and advanced features. The RZ10-140E-14ZK vacuum pouch

packaging machine can handle a wide range of products, including pills, capsules, and other medical devices, and ensures that they are packaged with the utmost care and attention to detail.

With its 14 workstations, the RZ10-140E-14ZK vacuum pouch packaging machine can handle large volumes of products quickly and efficiently. This is especially useful for businesses that need to package products in high volumes, such as manufacturers and processors in the food and beverage industry.

Overall, the RZ10-140E-14ZK vacuum pouch packaging machine is a powerful and reliable tool for businesses looking to package their products with speed, precision, and efficiency. Its advanced features and versatile design make it suitable for use in a wide range of industries and applications, from food and beverage to pharmaceuticals and beyond.

### Main Specification

| Model                    | RZ10-140E-14ZK Vacuum Pouch Packaging Machine                     |
|--------------------------|---|
| Bag Size                 | W: 80-140 mm; L: 100-280 mm                                       |
| Filling Range            | ≤ 400 g   |
| Packing Speed            | ≤ 80 bags/min (depending on products and bags materials)          |
| Weight                   | 3000 kg   |
| Dimensions (L*W*H)       | 2610 mm*1620 mm*1800 mm (L W H)                                   |
| Total power              | 8.45 kw   |
| Driving Power Source     | 380 V three-phase five line 50 HZ (other power can be customized) |
| Compress air requirement | ≥ 0.4 m³/min (Compressed air is provided by the customer)         |
