

CPTRLM - 60 Sticker Labeling Machines

At Chamunda Pharma Tech, we believe in sticking to quality at every step of the way and this is something that we have also maintained while designing and manufacturing sticker labeling machines. Our sticker labeling machines work perfectly with bottles having the diameter of around 16 mm to 70 mm.

The sticker labeling machine units have a net weight of around 300 kg which makes them heavyweight equipments. We can offer you sticker labeling machines that can work on the labels with lengths of around 20 mm to 350 mm and width of about 10 mm to 80 mm.

Technical Parameters

MODEL	CPTRLM - 60
Output	40/60/80/100 BPM
Bottle Size	20mm to 350mm(L) 10mm to 80mm(W)
Power	HP 220Volts
