

SH-YT2T-2PXD Automatic Servo Piston Pump Quantitative Double Heads Viscous Liquid Paste Filling Machine

Main Feature

- ▶ Filling is controlled by servo piston pump, filling volume can be set directly to achieve quantitative filling.
- ▶ Suitable for filling viscous liquid or paste like cosmetic cream, shampoo, laundry detergent, engine oil, etc.
- ▶ With feeding pump, filling material can be supplied continuously.

Parameter

- Machine Model: SH-YT2T-2PXD
- Voltage: 110/220V 50-60HZ
- Power: 2KW
- Filling Heads: 2 Heads(Can be customized)
- Filling Range: 10-180 ml/30-500 ml/100-1000ml (Can be customized)
- Filling Speed: About 20-40 bottles/min(dependent on materials and bottle size)
- Hopper Capacity: 30L
- Filling Accuracy: $\pm 1\%$
- Suitable Bottle Size: Customized
- Air Pressure: 0.5-0.8 MPa
- Memory Function: Available
- Machine size: About 2156*986*1884mm
