

FSC-600 Automatic Continuous Tray Sealer

FSC-600 Continuous Tray Sealer Machine can pack 6 boxes at a time to meet the packaging needs of large-scale production. With a professionally designed tray feeding mechanism, it can run continuously, significantly enhancing packaging efficiency. Based on varying packaging requirements, multiple sets of mold is optional for different products. Utien offers comprehensive and specialized packaging solutions tailored to client specifications.

Continuous tray sealer is featured with two different types of packages: MAP and vacuum skin pack. It's perfect for the packaging fresh, refrigerated and frozen food, including meat, poultry, seafood, sausages, bacons and prepared fast food.

Features

1. Packing speed: 6-8 cycles/min
2. Packaging option: MAP, VSP and Simply Sealing
3. High speed, high precision and accurate control with servo motor
4. Multiple sets of molds can be customized
5. Workable with various top roll films
6. Uses German Busch vacuum pumps, with oxygen residual below 0.4%.
7. Utien's unique skin pack technology (Unifresh®) ensures outstanding packaging results.
8. The machine body is made of 304 stainless steel, which is corrosion-resistant and easy to clean.

Specifications

Machine dimension(mm)	4210×1172×1792
Speed(cycles/min)	10~12
Cycles/min, Top Seal	6~8
Cycles/min, MAP	6~8
Cycles/min, Skin Pack	
External diameter of the film roll(mm)	≤300
Power(kW)	18
Vacuum Pump	BUSCH
Power voltage(V/Hz)	380/50 or Customized
Oxygen residual for MAP	≤0.4%
Gas option	N ₂ ,CO ₂ /N ₂ , O ₂ /CO ₂ /N ₂
Top film	Transparent top film, pre-printed top film
Packaging applications	Fresh foods, cooked foods, seafoods, frozen products, ready meals, fruits and vegetables...
