

STB-20

Preformed Vacuum Tea Pouch Packing Machine

Weigh tea into preformed pouches, then shape and vacuum-seal the pack. Specify the pouch around the tea and your final retail presentation.

Finished package

Preformed vacuum pouch

STB-20 fills preformed pouches. It does not manufacture a filter-paper infusion bag or add thread and tags.

Packaging format illustration; final material and dimensions follow sample confirmation.

STB-20 | Reference specifications

Output	Approx. 18 bags/min
Dosing range	1-15 g, subject to tea testing
Bag size	55-65 mm wide x 105-170 mm long
Dosing system	Dual weighing system
Power	1.8 kW; reference supply 220 V / 50 Hz
Compressed air	0.6 MPa; 0.30 m3/min
Reference weight	120 kg

Actual output, accuracy, materials, utilities and optional equipment must be confirmed in the project technical agreement.

For configuration review: provide tea samples, target dose, bag dimensions, packaging material, required output and destination electrical supply.
