

VLJ-120 Glue Labeling Machine

VLJ-120 Glue Labeling Machine is widely applied to agrochemical, pharmaceutical, cosmetic, food industry, special fine chemical, daily chemical, etc. It is used for labeling circular bottles. The max labeling speed can reach 120 bottles/min.

Features:

1. Used the automated Settings, easy operation.
2. High speed labeling, low malfunction rate.
3. If no bottle in the seat, the machine will stop till bottle coming to labeling.
4. If you want to changed the bottle size (bigger, smaller), you may only change some small components, such as gasket.

Technical Parameter:

Power supply	AC 380V ; 50Hz (or according to client voltage requirement)
Power	2.2Kw
Suitable bottle size	Φ35mm—Φ110mm
Suitable label size	260mm (Width) x 100mm (Height) Maximum
Production Capacity	0-120 bottles/min
Machine weight	500kg
Machine Dimension (L×W×H)	3000mm × 950mm × 1000mm
