

CM-EH / EH2D Series Continuous Extrusion Blow Molding Machine

This model is a blow molding machine for high speed production of high quality small bottles. This machine offers PLC control, and linear guide in blowing unit for shorter cycle times and much higher efficiency.

Specifications:

Model		CM-90EH	CM-90EH2D
Material to be Used		PE	PE
Screw Diameter	mm	90	90
Screw L/D ratio	L/D	24:1	24:1
Screw Speed Range	rpm	15~65	15~65
Inverter Motor	HP	75	90
Mold Center Distance	mm	80	80
Hydraulic Drive Motor	HP	40	50
