

Finished Product Conveyor SP-W10

Application:

Finished product conveyor consist of stainless steel and food grade polypropylene (PP) material of the modular chain plate

Mainly used to convey the finished product from packing machine.

Technical parameters:

Conveying speed	30M / min
Power	120W
Voltage	Single phase AC220V, 50Hz
Machine packing size	1600mm (L) ×520mm (W) ×1000mm (H)
