

GT-310F Powder Packaging Machine

GT-310F Powder Packaging Machine is designed and manufactured by advanced science and technology. It has reliable quality, high efficiency and beautiful shape. As regards its automatic control system, we have adopted advanced photo electricity track planet differential compensating mode and automatic constant-temperature control mechanism, which makes our machine has very fast packaging speed. Moreover, our machine can carry out step less speed adjustment, and automatically finish the processes of bag making, computation, filling, sealing, cutting, counting and printing number on the bag. Powder packing machine is widely used in the field of medication, food, chemical industry etc

Technical parameters:

Model	GT-310F
Bag length	50-150 (mm)
Bag width	25-120 (mm)
Film width	60-240 (mm)
Filling volume	5-100 (ml)
Packing speed	30-60 (bag/min)
Power	1.8 (KW)
Air source	0.6 (mpa)
Air consumption	1 (m ³ /min)
Size	760×980×1700 (mm)
Weight	310 (kg)
