

HL1F-4 Fully Automatic Rotary and Swing Out Cold Glue Labeling Machine

Features:

This machine is one of our new machines which combined with the advantage of rotary labeling machine and swing out labeling magazine. It can work very stable like rotary labeling machine and also have the advantage of swing out labeling magazine such as suitable for many kinds of label and bottle, easy to maintain and so on. This machine have many functions and suitable for many kinds of bottles and labels.

Main Parameters:

Main motor power: 3KW

Main voltage: 380 \pm 10%V

Frequency: 50HZ

Suitable for bottle type: ϕ 35~100, H=140~320

Suitable label type: body label or wrap label

Maximum label length: 320mm

Capacity: 6000b/h

Speed adjustable range: 1000-6000b/h

Dimensions (length * wide * high) 1825*1725*1900

Weight: about: 2500KG

Compressed air: consumption : 0.08M³/min (pressure0.6MPa;no oil)
