

HG Tamper-evident Neck Bands Applicator (HLC Series)

INFORMATION

1. Stainless steel made housing with elegant appearance and compact structure.
2. Rotating knife plate features optimal rigidity and smooth motion. With internal sensor, origining system is totally automatic.
3. Mandrel easily positioned, providing efficient changeover.
4. Equipped with HMI, providing easy operation.
5. Succinct machine structure minimizes the possibility of trouble, and modular design optimizes the maintenance.
6. Light weight design for great mobility, cantilever type sleeve holder attached with machine body.
7. Specially designed for cap/neck sleeving: slant-sleeving makes sleeving for even small diameter smooth and stable.
8. Work with all other auxiliary devices and shrink tunnel, the real machine for your choice.
9. Equipped with intelligent memory settlement when sleeving multiple bottle types at different speed, providing user-friendly and convenient changeover.

SPECIFICATION

	機 型 Model	HLC-2150	HLC-2250	HLC-2350	HLC-1200M
MACHINE 主 機	長×寬×高(mm) Dimension(L x W x H)	980x670x2040			
	重 量 weight	450kg			
	電 源 Electric Power	AC-3 Phase 220V / 2.5KW			
	速 度 Speed	20~150 BPM	20~250 BPM	20~350 BPM	20~200 BPM
CONTAINER 容 器	瓶 口 直 徑 Cap Diameter	φ15-60mm			
	高 度 Height	Max. 350mm			
	材 質 Material	玻璃、金屬、塑膠 Glass, Metal, Plastic			
	形 狀 Shape	圓 Round			
SHRINK SLEEVE 收 縮 膜 材	材 質 Material	PVC, PET, OPS, PLA			
	厚 度 Thickness	0.035-0.1mm			
	膜料紙管內徑 Inner diameter of sleeve roll	5"~10"
