

## *Round Table High Speed Sealer AF-5000H*

This Round Plate Aluminum Sealing Machine is the new type of our company's R&D, which cooperate with the needing of production specification and the producing line. Meanwhile, this machine has some merit:

1. High efficiency, which can seal from 450 to 600 bottles per minute.
2. Keeping completing fresh with the mounding induction, which is convenient to tear open, the effect of sealing up is excellent.

**SPECIFICATIONS:**

Power Output	5000W
Input Voltage	220V / 1ph
Max. Current	25A
Cap Diameter	10~40mm
Belt Speed	0~450m / min
Generator Type	MOS-FET
Frequency	70K/Hz
Generator Size	400*420*360 / mm
