

## *K406 Automatic Sachet Vertical Back Sealing Packing Machine*

K406 Automatic Sachet Vertical Back Sealing Packing Machine is specially designed for small particle products automatic weighing & bag form fill seal at high speed. Adopting advanced technology, this machine unit is especially suitable for middle size and small size enterprises for saving labor cost and increasing production capacity.

### **Features:**

Two side heat sealing with PID temperature controller to have more accurate temperature control, more strong sealing quality, more wide usage of packaging material.

Adopt stepping motor control, more precise bag forming, length accuracy 1mm.

### **Specifications:**

<b>Machine Model:</b>	<b>K406</b>
<b>Packing Speed:</b>	80-120BPM
<b>Sealing Style:</b>	Three Side Seal
<b>Weighing Range:</b>	1 – 40ml
<b>Weighing Accuracy:</b>	±3%
<b>Bag Size Range:</b>	30-55mm (W) X 100-120mm (L)
<b>Power Supply:</b>	Three phase four wire 220V50HZ (injection 4) 3.2KW
<b>Machine Size:</b>	1200×8×1800
<b>Machine Weight:</b>	600KG
<b>Film Material:</b>	Various composite membrane packaging materials

**Options:**

- Infeed & outfeed rotary tables
- Coding machine for data/batch printing
- Infeed conveyor
