

Automatic Robotic Bag Palletizer With PLC Touch Screen HKJTPK-2

Characteristic

- 1> With Omron PLC and touch screen
- 2> With servo motor control
- 3> With magic eyes tracing

Contains

- 1. pallet tray shelf-one set
- 2. empty pallet tray conveyor- one set
- 3. to be palleting tray conveyor-one set
- 4. full pallet tray conveyor- one set

Usaging

Automatically finish the process of collecting , sorting and putting onto the pallet for cartons and bags.

Technical Specification

Capacity	600-800 noodle bag package per hour
Pallet tray size	1200mm(L)*1200mm(W)*150mm(H)
Pallet tray material	Steel, plastic or other material

Pallet mold	Can be customized
Power supply	380V/50Hz
Stacking speed	1~8 pcs/min
Stacking height	≤2m
Air source	0.6~0.7Mpa
Suitable material	bags and boxes
Tray dimension	(1000~1200)*(1000~1200)mm
Robot	Fanuc
