

Multiple Function Labeling Machine SD-TBJ

The model SD-TBJ is one of our most upgrade product. It is capable to label the bottles on one side, double sides, three sides, top sides or other labels type for different kinds of shapes with one or more labels, its most out-standing advantage is that it can be customizing to label almost kinds of labels rolls and bottle shapes;

Features:

- Adopt mature technology PLC control system, stable and high-speed operation;
- Touch-screen Man-machine interface operating system, simple and efficient ;
- Adapt to variety shape of objects in top surface labeling way;
- Screw adjustment to suppress label object move accurately;
- Synchronization chain mechanism ensure label smooth and precise;
- Advanced technology of pneumatic code system, print the batch number and expiry clearly.
- Transmission-type roll label device, make sure the label attached more firmly;

Technical parameters:

Model	SD-TBJ
Processing speed	30-120 bottles per min
Labeling accuracy	±1.0 mm
Applicable labels	adhesive sticker opaque label
The inner diameter of label roll	76 mm (min)
The outer diameter of label roll	350 mm (max)
Applicable labels size	Width 15-180mm, length 15-300 mm
Power source	AC380V 50/60HZ (can be customized)
Power	800w
Weight	270kg
Dimension	2400mmL/1350mmW/1500mmH
