

## SHL-3520 Diagonal Labeling Machine

### Features

1. Single and diagonal labels for flat and square boxes of different specifications can be affixed (to the cartoner's linkage line) with stable feeding and large buffer space.
2. Synchronous chain proofing mechanism to ensure smooth and accurate proofreading.
3. Screw carving control structure, accurate labeling. Large adjustment range. Can adapt to a variety of boxes.
4. Stick transparent labels without blistering or wrinkling.

### Parameter

Model	SHL-3520
Voltage	AC220v 50/60Hz
Power	1.75KW/hour
Output (pieces / minute)	0-230 box/ minute (related to product and label size)
Operating direction	Left in right out or right in left out (can be connected to the production line)
Labeling accuracy	$\pm 1$ mm
Label type	Adhesive sticker
Labeling object size	L 260mm,W 40-260mm,H 15-80mm
Label size	H15-80mm,W 10-80mm
ID of label	76 mm
OD of Label	260 mm(max)
Weight (kg)	700kg
Machine size	2400(L)1350 (W) 1500 (H) mm
Remark	Accept non-standard customization
