

NBR-140 Aluminum Blister Packing Machine

NBR-140 aluminum blister packing machine is specially designed for small and medium-sized pharmaceutical factory, hospital preparation room, health products factory design of high degree of automation of the new product. Using microcomputer programmable controller, touch panel operation, frequency control, adjustable range, easy to operate, durable, small model, complete functions.

Main technical parameters

最大冲裁速度 Max.Cutiing Speed	6-38次/分 times/min
最大成型面积及深度 Max.Forming Area & depth	140*110*14mm
生产能力 (Production Capacity)	2-11 万粒/时 ten thousand grain/hour
行程范围 Travel Range	40-120mm(Customerized)
标准版块 Standard Plate(mm)	40mm
空气压力 Air Pressure(兆帕Mpa)	0.4*0.6 Air Supply $\geq 0.2\text{m}^3/\text{min}$
电源总功率 Power Supply	380v/220v 50Hz 3.6KW
主电机功率 Main Motor Power(千瓦KW)	1.1
PVC硬片 Hard Sheet(mm)	0.15-0.5*150
PTP铝箔 Aluminum foil(mm)	0.02-0.035*150
透木纸Dialysis Paper(mm)	50-100g*150
模具冷却 Mould Cooling	自来水或循环水 Tap water or recycled water
外形尺寸Overall Dimension	2300x560x1410mm(LxWxH)
整机重量 Weight	600KG
