

Automatic Sleeve Label Machine High Speed CY-150

CY-150 Sleeve Labeling Machine is custom built to meet the exacting demands of manufacturers and suppliers. It can be used stand alone or integrated in-line and matching filling equipment speeds.

- 1) It is built upon a framework of seam welded, food grade stainless steel section. This solid foundation keeps movement and vibration to an absolute minimum to ensure consistent, accurate labeling.
- 2) Unit cutter head plane design in China which apply to the container of $\phi 30$ mm— $\phi 130$ mm. you never need to change or debug it. It also has unique light touch human-machine screen, that means, auto search original location as well as safety and convenience which is ahead of other congener products.
- 3) Double shrinking label feed plane, reasonable height which is convenience to fix the label; micro-computer auto figure which avoid enactment and adjustment. You only need to press it lightly, the label will detect and locate automatically. The change of label is quick and convenience, besides, the cut place is absolutely exact.

Technical Details

Capacity	0 - 200 BPM (Bottle Per Minute) depended on label length
Application	As per customer's product
Product Condition at time of Labeling	Filled
Bottle Material	Glass/ HDPE/ LDPE/ PET/ Metal
Bottle Shape	Round/ Cylindrical
Bottle Diameter	Available from 50 to 95 mm
Bottle Height	Available from 150 to 350 mm
Label Type	OPP film in roll form
Label Size Range	Height 50 - 100 mm
	Length 160 - 295 mm
Label Roll Size	I.D. 150 mm / O.D. 500 mm
