

Irregular Shaped Packing Machine

Irregular shape packing machine adopted in the form of back-sealing fillet, intelligent control system, servo motor, and servo drive clamps, it makes the machine film more accurate, faster, clamp makes the back seal edge and horizontal seal more stick, and the bag looks more beautiful. Suitable for three-side seal, back seal, four-side seal bags.

Product Features:

1. Irregular shape packing machines suitable for the food, medicine, chemical industry, cosmetics industry of liquids, sauce of measurement packing
2. All the works of bag making, measuring, filling, sealing, cutting, and counting can be done automatically, at the same time, it can also according to the demand of customers printing batch number and other functions
3. The touch screen operation, PLC control, servo motor to control the bag length, stable performance, easy to adjust, and accurate detection. Choose the intelligent temperature controller and PID control to ensure the error range of temperature controlled within 1 degree Centigrade.
4. Packing material: BOPP/Polyethylene, Aluminium/Polyethylene, Paper/Polyethylene, Polyester/Aluminized/Polyethylene, Nylon/ CPP, and so on.

Optional Equipment:

Coding Machine / Lower cutter / Radius tool.

Application:

This machine is applicable for the liquid, paste, and sauce materials in the pharmaceutical, daily chemical, food, and pesticide industries. Fully automatic packaging of products such as shampoo, shower dew, creams, sleep-free facial mask, water-free hand wash gel, juice, jam, sauces, and more.

Product Parameters:

Product name	Irregular shape packing machine
Measuring Scope	1-20g (2.6-60ml)
Bag size(mm)	L: 30-180mm W: 20-75mm
Packaging speed	30-60 bags/min
Sealing type	Back sealing
Machine Dimension	L850x W1100x H1900mm
Weight	400kg
Total power	220V/50Hz/1.4Kw
