

## Turntables PTT-30

Stainless steel Scrambler & Unscrambler, which is familiar as turntable. This is built on MS Square frame, solid guide rail & reduction gear box for jerk less & noiseless performance. Turn table is useful to ensure total synchronization, uniform flow of container and to take a turn at 90 degree to suit different machines and purposes for automatic transfer of container for further operation.

### Operation:

Container loaded on turn table manually or automatically will rotate on disc of turntables. During rotation of turntable, the container will be guided by a SS strip towards outlet path. The output of turn table can be maintained by A.C. Frequency drive.

### Technical Specification:

Model	PTT-30
Direction	Clockwise / Anti clock wise as per requirement
RPM of Disc	Maintain by A.C. Frequency drive
Power Consumption**	0.5 HP/ 415 volts / 50 Hz
Height of Disc*	850 mm to 900 mm
