

## DXDK-1200 Granule Packaging Machine

With advanced performance, high strength, low noise, compact structure, stable operation and long service life. This machine is suitable for packing loose and unbonded granule and powder materials, liquid materials, water-bindered pill, and small and medium-sized bags with measurement packing requirements. It is suitable with a variety of packaging film, such as PET/ALPE, PET/PE NY/AL/PE, NY/PE and so on.

### Main Technical Data

Model	DXDK-1200
Packaging Material (mm)	ALU-PVC, Paper-Poly, Plastic and ect can be heating sealing material
Packaging(mm)	Width: Max 1200
	Thickness:0.05-0.1
	Outer Diameter: MaxΦ300
	Inner Diameter: Φ70-Φ76
Sealing format Width (mm)	Max : 600
Bag Size(mm)	Length:60-180
	Width:50-150
Filling capacity(ml)	Granule:0.5-20
	Powder:0.5-10
Packaging capacity(time /min)	50
Capacity (bags/min)	Max 500 (according to bag size)
Power	380V 50HZ 18KW
Size L×W×H (mm)	2010×1800×2100
Net weight (kg)	2700
Re : No additional information noted if there are any changed caused by the technical development.
