AC-380 Automatic Blister Paper Card Packing Machine

AC-380 is Suitable for half-cover seal blister card packaging, such as daily commodity, small hardware (battery, electronics, glue), stationery, auto part (brake pads, spark plugs), cosmetics (lipsticks), toys (small cars), food etc.

Function

--Automatic forming blister, punching the blister, scrap collect, dropping paper card, paper blister heat sealing, product output automatically.
--Accurate temperature control module, PVC shortage alarm, insufficient air pressure auto stop and automatic warning for damaged electrical parts.
--Human-machine interface and PLC control system, and is equipped with counting, starting password, fault reminder, maintenance reminder and other functions.

Main Parameter

Production speed	15-20 times/min
Stroke range	30mm-200mm
Max forming area	370mm*180mm
Max standard forming depth	50mm
Forming heating power	3kw(*2)
Heat sealing power	4kw
Total power	13kw
Air consumption(air compressor)	consumption ≥0.5 m³/min
Air Pressure	0.5-0.8mpa
Mold cooling water (chiller)	50 L/h
Packing material（PVC）(PET)	thickness0.15mm-0.5mm内
Packing material (cardboard)	200g-500g
Max paper dimension	400mm*200mm*0.5mm
Total Weight	2300kg
Machine dimension(L*W*H)	4485mm*1550mm*1800mm
