

JCV-420C Cup Filler Pouch Packing Machine

QUICK DESCRIPTION

The machine is equipped with a rotating quantitative cup-type measuring mechanism to measure and pack products. It has a low cost and is suitable for products that do not require high precision and have a single packaging specification.

TECHNICAL PARAMETER

Model	JCV-420C
Packing speed	40-90packs/min
Envelope width	110-320mm
Bag size	L80-180mm, W45-150mm
Total power	3KW
Heating power	Middle seal 0.7 Kw ; End seal 1.2 Kw
Total Weight	350Kg
Machine noise	≤75dB
Dimensions	1220×900×1750mm
Compressed air consumption	6-8Kg/m ² 0.3m ³ /min
Power Type	220V, 50Hz
