

## *LT-CE12 Automatic Unpacking Machine*

LT-CE12 automatic unpacking machine sets automatic unpacking, automatically folding lower cover and automatically sealing the bottom of the carton into one. The machine adopting PLC + man-machine interface control, does not stop at the end of the fold, and completes the folding bottom and the back cover during conveying. At the same time, it completes the whole process of suction box, forming, folding bottom and ends closing. It is easy to operate, simple in maintenance and stable in performance. It is an indispensable assembly line equipment for automatic scale production.

### **Features**

1. Compact design: easy to install;
2. Sealing device: Manually adjust the size of the carton to accurately seal the top of the box;
3. Adhesive tape bonding bottom; clean, accurate, touch;
4. Rationalized design, synchronous suction molding, one-time simultaneous molding of pleat bottom and back cover;
5. Light and compact, precision and durable performance, no vibration during operation, stable operation, long life, high efficiency;
6. Equipped with blade guard to avoid accidental stab wounds during operation;

### **Application:**

This machine is the fastest Continuous Motion Cartoning Machine in our company. It is suitable for pharmaceuticals, food, household chemicals, hardware and electrical industries for the packaging of blisters, bottles, pouch, vials, pillow packs, toothpaste, etc.

## Technical Data

Encasing speed	30-120(boxes/min)
Box Quality requirement	250-350g
Box Dimension range	(65-160) x (30-85) x (15-50)mm
Unfolded leaflet specification	(80-230) x (90-170)mm
Leaflet Fold range	1-4 fold
Working pressure	≥0.6Mpa
Air consumption	120-160L/min
Power supply	380V 50Hz
Motor power	0.75kw
Machine dimension	2300 X 1140 X 1800mm
Product Keywords	automatic cartoning machine for bottle, automatic carton folding machine, automatic carton box packing machine for cosmetic medical commodity
