

## SF-3040 Automatic Static Fixing Round Bottle Labeling Machine

### Feature:

- Advanced HMI operation, PLC control;
- It is mainly used for labeling of round bottles or cylindrical objects with static fixing requirements.
- It has the 304 stainless steel structure and three-color indicating light showing working status; the whole machine is beautiful and decent.
- New step drive, fast labeling speed, stable labeling performance

### Application:

- It applies to labeling of most round bottles or cylindrical objects.

### Technical:

Item	SF-3040
Labeling precision	$\geq \pm 1$
Labeling dimension	Width : 15-120mm length L : 15-350mm
Inner diameter of label roll	$\Phi 76$ mm
Labeling speed	20-50 Bottles/min
Power	AC220V 50/60Hz 750W
Weight	160kg (excl. coding machine)
Pressure range	0.4-0.6Mpa
Host dimension	1900×953×1362mm
