

## *Powder Pressing Machine*

The powder pressing machine is applied to press the color cosmetic powder product, such as the powder cake, blush, eye shadow. In piece on the cylinder automatic powder, powder quantity can be adjusted in accordance with the powder compared to the corresponding

### **Introduction:**

In the color cosmetic industrial, the products are divided into three categories: powder, liquid and cream. As a machinery manufacture, we produce the different color cosmetic machine to meet different processing needs.

The powder pressing machine is the powder cosmetic making machine. For example, the power cake. Eye shadow, high light, etc.

The powder pressing machine will work with the customized mould together, which was made according to customer's requirement.

### **Features:**

- ◆ For cosmetic powder design, suitable for powdery cake, blush, eye shadow, and powder block size suppression processing;
- ◆ Mixer machine convenient disassembling mold, the mold precision, use two male, one female die;
- ◆ Number of pieces pressed powder, pressure, speed, cloth length can be adjusted;
- ◆ In piece on the cylinder automatic powder, powder quantity can be adjusted in accordance with the powder compared to the corresponding;
- ◆ Mixer with double oil cylinders four-post type pressed powder, stable quality;
- ◆ Humanized design, equipped with light curtain protection device;
- ◆ According PLC and man-machine interface control, operation more convenient, more reliable performance.

**Advantage:**

- √ We are the machinery manufacturer, our factory is rooted in Jiangsu province, All the machine is designed and manufactured by our factory, our machines are surely of standard quality, and we also improve incessant.
- √ The powder pressing machine has attractive surface, the operation is simple and high working efficient.
- √ Our company offer the installation, debugging and stuff training service to customer's place, according to customer's demand.

**Application:**

The powder pressing machine is exclusively equipment, used in the color cosmetic production industrial to producing the powder color cosmetic, such as the powder cake, blusher, high light and eye shadow.

**Configuration:**

Name	Mechanical Specifications
Outside dimension	2400×2570×1600mm
Table height	730mm
Weight	1000KG
Power supply	AC380V/3 phase/50 Hz
Hydraulic working pressure	0-80 kg/cm <sup>2</sup>
Maximum hydraulic pressure	100 kg/cm <sup>2</sup>
Air supply	5-6 kg/cm <sup>2</sup>
Maximum aluminum ware diameter	Φ65
Maximum output	About 18 / minute
