Automatic Shrinkable Label Inserting Machine XYL-800

Description:

- Machine design with the "Innovated Single Inserting Head" to reach 800bpm on 180mm label height sleeve.
- Machine constructed by stainless steel with especially and luxurious appearance. Comply with safety regulation. Single machine structure ensures convenient installation.
- Standardization and modularity design for change over convenience and quickly during repair and maintenance.
- Driver system with precision gear design, speed stably to reach label height at +/-1mm tolerance.
- Ultrasonic sensor response with sliding system, collocate with spring tension control system for sleeve more stably.
- Mechanism adjusts by a precision instrument design, can adjust to the setting location wanted easily and accurately when change the product dimension or product line.
- Label change design by roll up accumulation system. According to the length of the label, the machine no stop for sleeve continually with 90-100 minutes during high speed operation.
- Axles control design as principle and follows the mode automatically to reach the high speed accurately.
- Greatly colorful interface control panel as master control for all operations and control sets, close to humanization.
- Machine could be special designed according to label length max to 300mm above.

Specification:

Model	XYL-800
Power source	3P/ 220V~ 415V
Production rate	800BPM(label length 180mm)
Range of bottle diameter	Ø25 ~ Ø130
Label insertion length	25mm ~ 220mm
Range of label thickness	0.035mm ~ 0.08mm
Material	PVC, PET, OPS
Total Power	15KW
Machine dimension (L×W×H)	1700 × 1375 × 2100mm
